TWICE-TRANSPLANTED STOCK

Group 1, 10c each: Balsam Fir 6-12 inches, White Spruce 9-12, Douglas Fir, 6-10, Colo. Blue Spruce 6-10.

Group 2, 15c each: White Spruce 12-15, European Larch 8-12, Englemann Spruce (very bushy) 6-10, Norway Pine 15-20.

Group 3, 25c each: White Spruce 15-18, Norway Spruce 12-18, Dwarf Mugho Pine 6-10 inch spread, Austrian Pine 10-15, European Larch 12-16, Scotch Pine 12-18 (very bushy).

Group 4, 50c each: White Spruce 20-30, Balsam Fir 20-30, Scotch Pine 20-30, Colorado Spruce 15-20.

EXPLANATION OF PRICE LIST

The letter "S" indicates seedlings. "T" means transplants. Twice-transplanted stock has been transplanted again at a much wider spacing, and the result of this is to cause it to grow more bushy, with a heavy root-system. Such trees cost more to dig and ship, but develop much more rapidly when transplanted.

25 or more trees of the same size and kind are sold at the 100 rate, 250 at the 1,000 rate.

Fall shipments will be sent out between Sept. 1 and about Nov. 15, or until the ground freezes. Spring shipments will start about April 15, and shipment of booked orders will be completed about April 25. Orders sent out after May 1 will be treated with rotenone before shipment. All orders should be in our hands a week before shipment is wanted, as we must notify the Federal Inspector in time for him to be present when trees are dug.

We are on the list of nurseries classified as "Free from Japanese Beetles," and as long as we continue to be on this list, we do not have to wash roots before shipping.

The price quoted here are on the not-prepaid basis, and when parcel post shipment is wanted, 25% should be added to the remittance to cover postage. We will refund the postage not needed. When mode of shipment is not stated, we ship by express.

Terms are cash with order. On account of the cost of packing, we cannot send out orders under \$1.50. Since evergreens are perishable, we do not ship C. O. D., and therefore no buyer gets trees which previously have been shipped elsewhere and returned.

TREE SEEDS

We are collectors of northern evergreen seeds, including white pine, red pine, balsam fir, white spruce and hemlock. At the time of sending out this price list, we do not know what kinds will be available next fall. Those who are interested in purchasing good seeds at a price below the usual retail rate, should write us stating their needs. By Sept. 1 we will know what kinds of seeds can be obtained.
